Fresh Paint Studio instructors are mobile and are able to visit your school but we also welcome students and teachers to visit our studio located at 1849 Danforth Avenue.

We realize that educators are constantly looking for new, interesting and creative ways to provoke thought while stimulating learning. Fresh Paint Studio offers a variety of engaging creative art workshops for students from Grade 2 to 12.

*Our art workshops enable students to think imaginatively & creatively about the world around them.*

Many of our workshops focus on literacy. These Poetic Art Workshops provide students with an opportunity to use art and poetry to explore their inner selves and to make connections with colour, words, and emotions in a unique and creative manner.

We also offer collaborative workshops that can involve multiple grades and ages as well as projects that can be completed on an individual basis.
